

Edith Busch – Prize for Young Investigators

The Edith Busch-Stiftung was founded in 2015 to support research on scleroderma aimed at unraveling its pathogenesis and improving therapy. To this end, it invites experts in the field to nominate outstanding young investigators who have done ground breaking research which fits the aims of the EBS. **A Prize of 15 000 EUR** in support for further research will be awarded during the upcoming World Scleroderma Congress in Bordeaux to the candidate selected by the board.

Please send the following documentation before September 30th, 2017

To Edith Busch Stiftung
 Prof. Thomas Krieg
 Department for Dermatology and Venerology
 At University Hospital Cologne,
 Kerperner Str. 62
 50937 Köln
